Now a day's Information Technology (IT) play significant roles on company performance and growth. Established in early of year 2008, BICOM is a IT Solutions company which focus on delivering valuable and reliable IT services to customer with the concept of "One Stop IT Solutions".

We understand lot of time customer gets exhausted when they have to work with more than two to three IT vendors or more to fulfill their IT requirements. With BICOM expertise and services lets us deliver the right and practical IT solutions to your company and make it all on one place, one vendor which you can trust.

Bicom service and solutions include Managed Services, Installation and Assessment of Server and Network, Software Development, Web Development and Hardware and Software suppliers.

SERVICE

MANAGED SERVICES

How many computers do you have in your company? Are you frustrating when your computer and system broke down? Do you think your personnel really competent to fix the issue or make it become worse?

BICOM Managed Services provide "certified" and "trained" support which experience in their field to support your daily computing service so you can focus on your company core business.

Our Managed Services include maintaining existing system, network infrastructure, server and backup, offer solution for company for increase the existing system or even install new system, server and network infrastructure from the scratch.

SOFTWARE DEVELOPMENT

We understand each company have their own business process style and need program which can support the business to make process more faster and efficient.

BICOM provide custom application programming service, database design, client-server and internet/intranet software application development to end customer. We strive to provide our customers quality application development services and web development services that help them to remain in step with their competitor by using modern software development platforms and application development tools.

HARDWARE & SOFTWARE SUPPLIER

BICOM, provide Hardware and Software License distribution for company and reseller. Our product include Server and Workstation (Branded/Non Braded), Backup device, Network peripheral, Network Area Storage (NAS), Firewall, Switch, Operating system, Antivirus product, etc.

To provide better support and competitive pricing to our customer, BICOM has become one of the authorize reseller and partners for: HP, MICROSOFT, ACER, ICA, DELL, APC, IGEL, KASPERSKY, CISCO and more.

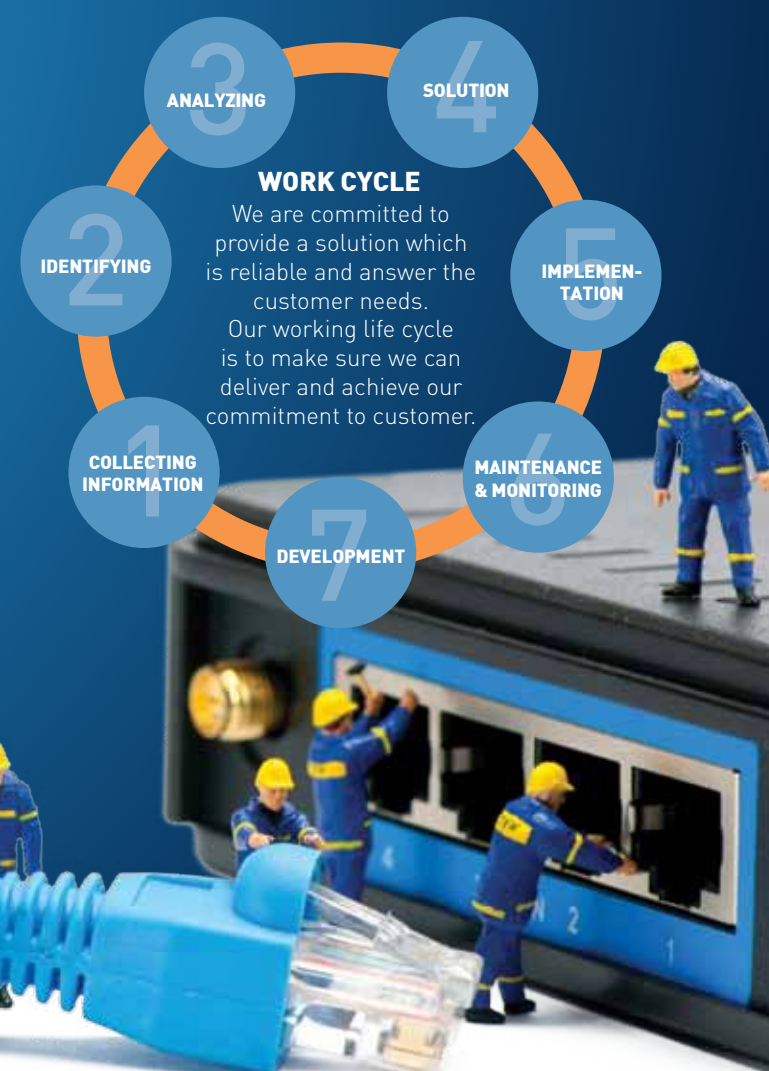

Good IT Solutions is a solution which can create a value and boost up the efficiency and performance of your company business. It's important to know you are having the right solutions.

BICOM provide Installation and Assessment service for your new or existing server and network. Solutions given by BICOM will be based on IT Audit and analysis such as reliability and maintainability of new/existing system and infrastructure. Our focus is to look for solutions that can benefit and meet the company requirements.

WEB DEVELOPMENT

Now a day, it became quite common a company should have a website. Website could be your company most active marketing in promoting your company, it could describe your company professionalize, business and services provide by your company.

Our WEB Development Services team always follows the market trend to provide a new and fresh design for customer. We will ensure your content and information on your website understood by the customer and easier maintenance of your website after development. Our team will analyze your company requirement and will help you to decide the right web design for your company.
