## About us :

PT Sympac Indonesia was established in Jakarta in 2006 as a Trading company and supplier of Electrical Products and Services. Throughout the years, we have maintained a high level of professionalism to obtain our reputation of supplying excellent products and services.

In 2009, we were appointed a distributor by PT Esitas Pacific for their Instrument Transformers. We have since supplied and installed many of these Instrument Transformers all across Indonesia from Java, Sumatra and Makassar. Together with PT Esitas Pacific, we have developed 2 types of exclusive 24 kV Current Transformers, SMAO ATSI-24 (also known as CT Bebek/Corong) for use in Merlin Gerin (MG) Fluarc Medium Voltage (MV) Cubicles/Switchgears, and the SMAO ATGI-24 (also known as CT Bambu) for use in Fuji Electric Switchgears.

In 2012, we were appointed a distributor of IRISS Industrial-grade Infrared Windows in Indonesia. Ever since our appointment, we have been actively marketing the Infrared Windows throughout Indonesia through numerous presentations and seminars at various sites. Currently we have installed windows throughout Indonesia, from Java, Sumatra and Makassar.

In 2013, we were appointed a distributor by Rishabh Instruments Pvt Ltd for their Low Voltage Current Transformers. These Current Transformers are used as part of the Revenue Assurance Initiative of PT PLN (Persero) Distribusi Jakarta Raya dan Tangerang.

In 2015, we were appointed a distributor by T&R Test Equipment Ltd (UK) to distribute their medium and high voltage testing equipment. These products add on to our ever growing electrical testing portfolio.

We are constantly challenging ourselves to reach new heights in terms of quality of products and services. As we move forward, we aim to be the premier source for sourcing excellent products and services in various industries. Let us be your partner for your business.

A. Distributor

:

- a. ESITAS PACIFIC
  - L.V. & M.V. Instrument Transformers
  - L.V. & M.V. Cast Resin Insulators
  - Bushing Current Transformers
  - Indoor & Outdoor Ring Type Current Transformers
- b. IRISS
  - VP Series Standard Polymer Windows
  - CAP Series Standard Polymer Windows
  - Custom Solution Standard Polymer Windows
  - VPFC Series Calcium Fluoride ( $\text{CaF}_2$ ) Crystal Windows
  - Platinum Series Clear Polymer Series Windows (CAP-T, CAP-CT, VPT & Custom Solutions)
- c. RISHABH INSTRUMENTS
  - Current Transformer Splitcore
- d. T&R
  - High current and high voltage electrical test equipment.
  - Relay test equipment
  - primary current injection systems
  - Micro-ohmmeters
  - DC cable test sets
  - AC flash testers.

B. Trading

:

- Thermal Imagers
- Palm-sized Mini-Pc
- Cortec Anti-Corrosion Inhibitors

C. Service

:

- We provide the following services:
- Infrared Windows Installation
  - Instrument Transformers Installation

## CUSTOMERS LIST

1. PT. PLN (Persero) Distribusi Jakarta Raya dan Tangerang
2. PT. PLN (Persero) Distribusi Jakarta Raya dan Tangerang Area Pengatur Distribusi Jakarta
3. PT. PLN (Persero) Distribusi Jakarta Raya dan Tangerang Area Serpong
4. PT. PLN (Persero) Distribusi Jakarta Raya dan Tangerang Area Bandengan
5. PT. PLN (Persero) Distribusi Jakarta Raya dan Tangerang Area Pondok Gede
6. PT. PLN (Persero) Distribusi Jakarta Raya, Area Ciputat
7. PT. PLN (Persero) Distribusi Jakarta Raya, Area Tanjung Priok
